## ■ ENCLOSURES for SOCKETS and AUTOMATIC SWITCHES

PRYMA Enclosures for sockets and automatic switches are provided plain or equipped with sockets and wiring, in any combination and without minimum order quantities required.

They are sealable, UV protected on windows and also completed with fastening and turning hinges with a locking device to assure their watertightness.

**They are made from halogen free long-lasting plastic material.** Wall mounting screws are placed away from the watertight area (Ref. 17.8P and 17.8M). DIN rail can be fixed to the frame, and also, to the base without the need of screws. Holders are included on the enclosure to fix mounting plates and they are ready for earth and neutral bar installation.

Cable entries are adapted to the metric system and sockets wiring is carried out under electrical engineering preceptives.

## TECHNICAL DATA

■ degree of protection	IP67*
■ resistance to impact	IK08
■ auto-extinguishing degree	HB (UL94)
■ test of resistance to glow wire	650° C
■ ball pressure test	70° C

*According to 2006/95/CE directive and EN 60439-1 and UNE-EN 60439-3 norms on affected parts.*

\* Protection degree of complete unit complies with degree of lower rated element
